Highest level of safety

Anti-fog/Anti-scratch

Wide field of view

Modular Parts

High heat and flame resistance

Tactical Protective Goggles

Nisit Tactical Protective goggles are designed to take on the planet's most hostile and unforgiving environments, and feature cutting-edge technologies and patented innovations to ensure peak performance and uncompromised eye safety.

The central focus of our dedicated sales teams is to provide the highest quality products to our customers, tailored to their specific needs.

Adjustable Ventilation

The unique design regulates airflow and filtration on the move and helps:

- To eliminate fogging 'advancing' lenses click open for maximum airflow
- To seal out sand and dust, the lenses snap shut for maximum filtration

Lenses

- Clear and Smoke Gary 2.8mm polycarbonate high-impact lenses included (Hi-Def Yellow available)
- Lenses feature advanced anti-fog and anti-scratch coatings
- Lenses are high impact resistant and exceed ANSI Z87.1-2003+ and US Military .22 caliber ballistic impact test MIL-V-43511C
- All lenses provide 100% UVA/UVB protection and precise optical clarity for distortion free vision
- Modular technology allows all lenses to be quickly and inexpensively interchanged
- Spare lenses come in a hardened case.

Strap System

- 19mm wide high memory elastic strap system features quick adjust slides
- Hinged "strap out-riggers" pivot to ensure a sealed fit on the face with or without a helmet

Frame

- Lightweight, ultra low-profile design is compatible with night vision systems and ideal for weapon sighting
- Soft yet durable frame material is easy to clean and conforms to any face shape
Included goggle sleeve cover eliminates lens glint and keeps the goggles and the lenses scratch free
