**Stainless Steel and Leather
Secure Travel Containers**

The **Secure Travel Container (STC)** has been specifically designed to provide Government Agencies, Diplomats and Civil Servants, Security Operatives, Police, Customs and Armed Forces including both Public and Private sector business travellers the necessary high level overt/covert protection for their personal assets whilst in travel, accommodation based and operating throughout arenas both at home and abroad. The **STC** is fitted with HMG Home Office approved locks and comes as standard with a high tensile tether for securing to any fixed object. From concept the **STC's** compact design allows the operative to secrete any Private, Confidential and highly sensitive contents which require the protection from interference, attack or theft. The **STC's** dimensions allow secure retention of a mobile phone, passport and credit cards, memory sticks, sim cards, cash and paper information. Whilst travelling, the **STC's** size enables the user to conceal the unit in their hand luggage, grip bags, handbags or on their person. Once at their accommodation within the arena or area of operations, the user can covertly conceal the **STC** thereby allowing free movement in the secure knowledge that their effects are safe. Finally the **STC** comes in two levels of finish, the first being polished stainless steel with a leather pad to the internal slide compartment, the second a complete hand covered leather version with quality leather finish in various colours.

Specification of Product	
Product Code	STC/SS (Stainless Steel)
Product Title	Secure Travel Container
External Size	170L x 100W x 35H mm
Internal Clear Area	135L x 90W x 29H mm
Weight	0.5kg
